

**Veteran Recruitment Activity
Hiring Heroes Career Fair
Walter Reed Army Medical Center**

U.S. Fish and Wildlife Service employees participated in the recent Hiring Heroes Career Fair, held in late June, at Walter Reed Army Medical Center in Washington, DC. There were approximately 150 service members and veterans in attendance. The employers included 25 Department of Defense Agencies, 21 other Federal Agencies (including FWS), and 20 Corporate employers.

This Career Fair provided the occasion to talk one-on-one to approximately 90 service members and veterans about the volunteer opportunities available in FWS, through the Veterans Affairs' [Coming Home to Work Program](#) and the Department of Defense's [Operation War-fighter](#) program. These volunteer opportunities are available while service members are undergoing medical treatment. Service members were also provided with an overview about the agency, our mission, and information on careers within the FWS.
